Gets Water Down to the Root Zone, Where Turf Quality is Most Affected

Respond[®] 3 binds to materials in the soil allowing better water penetration to the root zone and water retention!!

RESPOND3
Concentrated Wetting and
Penetrating Agent

Respond 3 represents the leading technology in water management for turf. Improve water use efficiency during water stress periods by getting water to where it is needed most, in the root zone. Improved water penetration also moves excess water from the play area to allow faster return to play following heavy water.

Your Invitation to Savings with Respond 3

Purchase Respond 3 between January 1, 2011 and September 30, 2011 and receive \$25.00 per case savings.

Receive additional savings by ordering PAR III with your Respond 3 order. Ask your Respond 3 distributor for complete program information. Savings will be recognized with a Prepaid VISA card. Details on back.
