

TOURNEY® FALL OFFER: \$150 OFF EVERY JUG

TURF
REWARDS
REBATE

Receive a \$150 distributor credit for every jug of Tourney purchased between September 1 and November 15, 2017

HOW IT WORKS

1. Purchase Tourney from an authorized distributor or dealer
2. If you haven't already done so this year - sign up for Nufarm Turf Rewards at nufarm.ca/special-offers between September 1, 2017 and November 15, 2017
3. Your credit will be available January 2018

TOURNEY FUNGICIDE

- Most active DMI on the market
- Low use rate lessens the environmental load
- 1 jug covers 5 acres at the high rate

DISEASES CONTROLLED	APP RATE: G/100M ²
Anthracoze basal rot	8.4
Anthracoze foliar blight	8.4
Brown patch	8.4 - 11.2
Dollar spot	8.4 - 11.2
Fairy ring	8.4 - 11.2
Grey snow mould*	11.2
Pink snow mould*	11.2
Summer patch	11.2
Waitea patch	11.2

*For best pink and grey snow mould control, Tourney MUST be tank mixed with another fungicide active on snow mould (i.e. chlorothalonil).

A late season application of Tourney cleans up a wide variety of diseases, including anthracnose and brown patch. The final season application can also help take down inoculum levels and delay the reappearance of key diseases until later in the season (e.g. dollar spot).

TOURNEY FALL CLEANUP APPLICATION

- Apply at a rate of 11.2 g/100 m²
- With 8-16 L of water/100 m²
- Apply the last spray of the season to help protect disease-susceptible turf and clean up remaining summer and fall diseases as listed on the product label

Grow a better tomorrow.

FALL CLEANUP SPRAY

Fall is the ideal Tourney application timing to protect stressed/susceptible turf and set up for a successful following spring. Tourney, applied as a cleanup spray in the fall, will help clean up lingering tough disease infections and reduce disease potential the following spring. Tourney has the highest activity in its class and delivers superior control of a broad spectrum of tough diseases, providing superintendents with peace of mind and top quality turf.

SUMMER TURF/ROOT STRESS = FALL DISEASE SUSCEPTIBILITY
