LIQUID BIOLOGICAL AMENDMENT

www.ecotea.ca

Date of Manufacture:

Expiry Date:

Net Weight

10 L (10 kg)

PRODUCT AND USE

- This liquid biological amendment is extracted from 4 controlled microbial sources.
- Product is screened to 300 micron/50 mesh for use in sprayers and irrigation.
- Pressurized application should be kept below 50 p.s.i. for microbial efficacy.
- Use dechlorinated water for best results.

Removing chlorine: Let water stand for 24hr or actively aerate for an hour prior to mixing. Product is compatible with most other inputs in solution when applied last.

- Shake thoroughly before mixing product.

APPLICATION RATES

TURF	Dilution ratio	Solution coverage	Frequency
Turf - Greens/Tees	1:40	1 L solution per 185 sq.ft.	as part of a 21-day program
Turf - Fairways	1:40	1 L solution per 500 sq.ft.	2-3 times annually
Turf - Sports Fields	1:40	1 L solution per 500 sq.ft.	1-3 applications annually based on field use

LANDSCAPE	Dilution ratio	Solution coverage	Frequency
Trees - Installation	1:40	3 L solution per 1" caliper 1 L	1-2 times at install (then landscape maintenance rate)
Landscape - Installation	1:40	1 L solution per 100 sq.ft.	1 time application at install
Landscape - Maintenance	1:40	1 L solution per 200 sq.ft.	1-2 annual applications
Containers / Baskets	1:40	normal watering rate	every 3rd watering

CROP PRODUCTION	Concentrate per acre	Frequency of application
Viticulture Small Fruit - Installation	40 L	1 time at installation
Viticulture Small Fruit - Maintenance	20 L	3-4 times per season
Tree Fruit - Installation	40 L	1 time at installation
Tree fruit - Maintenance	20 L	2-3 times per season
Cannabis	30 L	3-4 times per crop cycle

INGREDIENTS:

Liquid extraction from premium worm castings, plant based controlled microbial compost, woodchips controlled microbial compost #1 and woodchips controlled microbial compost #2.

SHELF LIFE:

Store in a cool dark space-do not let product freeze. Use product concentrate within 12 months of manufacture date. Mixed product must be used within 12 hours.

SAFETY INSTRUCTIONS:

When mixing the product wear protective gloves and goggles and wash thoroughly after handling. On skin wash with water if in eyes rinse with water for several minutes. Wash contaminated clothes before reuse.

DISCLAIMER:

Buyer assumes risk of use, storage, and handling if product is not used according to directions. Overton Environmental Enterprises Inc. does not make any guarantees concerning this product or use thereof, except in conformity with the statements on this label.

GUARANTEED ANALYSIS

Premium worm castings.....	7.50%
Plant based compost	3.75%
Woodchips compost #1	1.88%
Woodchips compost #2	1.88%
Inert ingredients	85.0%
